For information not found in this Directory, inquiry may be made at any of the booths of the Bureau of Information, which are established at all the railroad stations and principal hotels in the city, and at the Mechanics Building. The Headquarters Booth of the Bureau during the Encampment is on Boston Common, near the West Street entrance, so called. The Bureau has also a large corps of guides, detailed from the Sons of Veterans, who will patrol the streets and give all information in their power. These guides will be distinguished by ribbon badges bearing the inscription "BUREAU OF INFORMATION."

The purpose of issuing this little book is to give in a concise form such general information as will be most likely to be sought by visiting comrades. It would be impossible to give every thing that everybody might want to know. Absolute completeness is not claimed, and should not be expected; but the compilation has been made as comprehensive and accurate as time and facilities would permit. It is not intended to be a "guide-book." That field is fully covered by the enterprising business firms of Boston, who have issued innumerable pamphlets which can be had for the asking.
